

Dear Mr. Drechsler,

I am so glad that there are generous people such as yourself that are willing to help students in my community prepare for college. A laptop and printer are some of the most important items needed in order to accommodate to a new life; the college life.

It's hard to leave the comforts of my hometown but it is essential for one to leave and commence a new and successful life.

I am truly happy that I won't have to add another expense to my mom's life because of your great generosity. I would like to extend my gratitude to you and also thank you for helping my community; Port Chester.

I can guarantee you that I and everyone who received this scholarship has one less major stress on our shoulders. In the future, I hope to be able to give students a helping hand for college. Thank you again, and best wishes. -Eduardo Contreras
