

Dear Mr. Drechsler,

After My Mother Passing away from cancer this February, things have been very difficult. I was very sad thinking about graduation with out her there and my mother unable to see My success as I graduated! Although My Mom was unable to give me recognition for My success, your generous to The TOP with a Laptop Scholarship did! I am a student that pushes against all obstacles I am faced with and never gives up. I feel as if My new Macbook pro is a special gift for a special girl! Thank you so much! I cannot wait to use it in college and I Promise to send updates on My success At the college of New Rochelle and Beyond!

Sincerely Michelle  
Goyke!
