

Dear Rob Drechsler,

Winning the award To the Top with Laptops was so overwhelming. I couldn't have asked for a better award to win. Hearing my name called brought joy to my face and my mothers face. As my mother realized that I won this award, she was speechless. Before winning the award my mother and I didn't know what to do with college, because I needed a laptop. Now since I have my MacBook Pro, completing my work is that much easier, this will bring success to my education later on. I won't have any trouble writing essays or doing power points. It truly does help me now and it will definitely help me in college. I thank you and the rest of the Drechsler family for handing me this award. In the future, handing this award to kids will motivate them to work that much harder in college and help them succeed. I truly appreciate the program, and I know this program will keep bringing smiles to kids who win the award.

Sincerely,  
Elver Maldonado
