

Dear Mr. Robert H. Drechsler,

As I am writing this email to you, I am extremely excited to be using this laptop for the first time. Sending this email is the first thing I wanted to do with my computer. I can't believe I will now be able to say that I have my own computer. I want you to know that words can't describe how grateful I am with your family's generosity. Unfortunately, my family would not have been able to buy me a computer, so I feel very fortunate to have received this award. Just last year as a Junior I remember rushing to the library to finish all my homework because I didn't have a computer. I would usually stay there until the library would closed because of how much of my homework depended on it. Having a laptop was something I knew would be necessary for college next year. I know this laptop will be a very helpful tool to my success at Providence College, especially in this technology dependent times. Know, that you are making a difference in my life!

Thank you again for your family's generosity!

Sincerely,
Guadalupe Gonzalez
